sustainability research and management within the basin should adopt an ecosystems approach. Presently, research and management of the basin is sector-based; hence, resource user conflicts are increasing. User demand for various resources is increasing rapidly mainly due to population increase and lack of alternative economic activities, thereby presenting challenges to sustainable resource management. Specific areas of sectoral interconnections are highlighted, and defragmentation options suggested. Seria defragmenting African resource management. (Darma Vol. 1)

A gripping murder mystery with a compelling family drama at its heart.

At the turn of the century, Nogowogotoc Lake was considered the Newport of the Midwest where some of the most affluent families from Milwaukee and Chicago spent their summers in luxurious cottages at the water’s edge. The story of the lake weaves the tale of four of these families over the course of generations. With each decade, another net of history—prejudice, love, and intrigue—is cast over the surface of the water, creating a more and more intricate pattern. Joseph Ulrich of Kreuser Beer and his rival, Pork Packing Prince Walter Schraeger, vie for the hand of Alicia Bosquet, flamboyant newcomer to the scene. Isabella Wells, the reclusive heiress to Milwaukee’s finest department store, becomes dangerously involved with Margaret Sanger’s early Planned Parenthood crusade while her sister Helen tries to protest the end of Prohibition, a force too great to contend with in the beer-loving city of Milwaukee. This often dark and disturbing American drama is full of gusts of lake air filling the senses with images and traditions that have mostly slipped away. A personal retelling of family secrets as well as a reflection of the times, the story of the lake is the big, passionate family saga that finally gives the Midwest its due.
