The handbook recognises internal communication's continued growth as a management discipline. It is aimed at leaders who want insight into IC techniques for use in both day-to-day operational and change situations, for example, and also at the communication specialist seeking shared wisdom and new ideas. Early chapters examine changes in the strategic context in which today's IC departments are operating. These include organizations increasing need for innovation and responsiveness in a superfast changing environment, employees increasing assertion of rights and personal requirements at work, management's increasing recognition of the importance of corporate reputation, brand value, particularly how to sustain and extend it, and finally the effects on work and management patterns of digital communication. Step-by-step guides introduce you to creating IC.

niaaa's guide to interscholastic athletic administration presents a wealth of information and insights from experienced athletic directors across the United States. This comprehensive resource covers leadership, operations, financial and facilities management, and other chief administrative responsibilities to help readers better understand the athletic director's multifaceted role. Niaaa's guide to interscholastic athletic administration was developed under the direction of the National Interscholastic Athletic Administrators Association (NIAAA), the trusted authority for excellence in administration of high school sports. This guidebook features the best practices in high school athletic administration to assist both aspiring and practicing athletic directors in meeting the demands of the job. General guidelines and background knowledge are complemented by specific strategies and techniques. Each chapter offers examples of how to solve common problems, and sidebars highlight creative solutions employed by exemplary high school athletic directors. This text features guidance and multidisciplinary information on handling some of the toughest parts of the job. A chapter on personnel management discusses mentoring and evaluation systems to assist with the growth and development of staff. A technology chapter offers specific recommendations of tools to help athletic directors operate more effectively and efficiently. A chapter on legal and safety concerns outlines concrete measures that administrators can take to prevent mishaps and protect their schools and staff from liability. Readers will also learn how to manage a budget and find creative alternatives to get the most out of available funds. Based on extensive research conducted by the editors, this text confronts several challenges facing contemporary high school sport administrators, providing comprehensive professional preparation for athletic director candidates and continuing education for today's athletic directors. Aligning the goals of education-based athletic programs and the conduct of coaches, athletes, and parents engaged in the program to the educational mission of the school district, state, and national governing organizations ensuring ongoing education in vital areas including student...

Breaking down barriers, creating transparency in digital communication, and effectively targeting different audiences is critical to today's successful organizations. Establishing a corporate newsroom is the answer. The first part discusses the different theoretical approaches of communication and the corporate newsroom model. Special emphasis is given to efficiency and effectiveness as the main pillars of this strategy. The second part presents case studies to illustrate how the corporate newsroom system can be used in the communication departments of organizations. The authors discuss real life
examples from Swiss Life Germany and the Dutch Police among others
and show how the corporate newsroom method impacted
communication strategies and results in these organisations this book
will be of interest not only for PR professionals but also for marketing
specialists and business leaders trying to bring corporate communication
to the next level since the turn of the century the impact of digital
technologies on the promotion production and distribution of music in
the Philippines has both enabled and necessitated an increase in
independent musical practices in the first in-depth investigation into the
independent music scene in the Philippines Monika E Schöop exposes
and portrays the as yet unexplored restructurings of the Philippine music
industries showing that digital technologies have played an ambivalent
role in these developments while they have given rise to new levels of
piracy they have also offered unprecedented opportunities for artists the
near collapse of the transnational recording industry in the Philippines
stands in stark contrast to a thriving independent music scene in the
county’s national capital region Metro Manila which cuts across musical
genres and whose members successfully adjust to a rapidly evolving
industry scenario independent practices have been facilitated by
increased access to broadband internet the popularity of social media
platforms and home recording technology at the same time changing
music industry structures often leave artists with no other option but to
operate independently based on extensive fieldwork online and offline
the book explores the diverse and innovative music production

of the humanities around the world this volume provides the first hemispheric view of the practice of digital humanities in the Spanish and Portuguese speaking Americas. These essays examine how participation and research in new media have helped configure identities and collectivities in the region featuring case studies from throughout Latin America including the United States. Latinx community contributors analyze documentary films, television series, and social media to show how digital technologies create hybrid virtual spaces and facilitate connections across borders. They investigate how Latinx bloggers and online activists navigate governmental restrictions in order to connect with the global online community. These essays also incorporate perspectives of race, gender, and class that challenge the assumption that technology is a democratizing force. Digital humanities in Latin America illuminates the cultural, political, and social implications of the ways Latinx communities engage with new technologies. In doing so, it connects digital humanities research taking place in Latin America with that of the Anglophone world. Contributors Paul Alonso Morgan, Ames Eduard Arriaga, Anita Say Chan, Ricardo Dominguez Pardo, Lazo, Hector Fernandez L. Hoeste, Jennifer M.
