Lucan's Imperial World 2020-02-06

These new essays comprise the first collective study of Lucan and his epic poem that focuses specifically on points of contact between his text and the cultural, literary, and historical environments in which he lived and wrote. Lucan's Civil War, Lucan's poetic narrative of the monumental civil war between Julius Caesar and Pompey Magnus explores the violent foundations of the Roman Principate and the Julio-Claudian dynasty. The poem composed more than a century later during the reign of Nero thus recalls the past while being very much a product of its time. This volume offers innovative readings that seek to interpret Lucan's epic in terms of the contemporary politics, philosophy, literature, rhetoric, geography, and cultural memory of the author's lifetime. In doing so, these studies illuminate how approaching Lucan and his text in light of their contemporary environments enriches our understanding of author, text, and context individually and in conversation with each other.

This new collection presents a rich selection of innovative scholarship on the Etruscans, a vibrant independent people whose distinct civilization flourished in central Italy for most of the first millennium BCE and whose artistic, social, and cultural traditions helped shape the ancient Mediterranean, European, and classical worlds. It includes contributions from an international cast of both established and emerging scholars, offering fresh perspectives on Etruscan art and culture. The collection analyzes the latest research and archaeological discoveries, reassesses and evaluates traditional topics like architecture, wall painting, ceramics, and sculpture, as well as new ones such as textile archaeology. It also addresses themes that have yet to be thoroughly investigated in the scholarship, such as the obesus Etruscus, the function and use of jewelry at different life stages, Greek and Roman topoi about the Etruscans, the Etruscan reception of ponderation, and more. It counters the claim that the Etruscans were culturally inferior to the Greeks and Romans by emphasizing fields where the Etruscans were either technological or artistic pioneers and by reframing similarities in style and iconography as examples of Etruscan agency and reception rather than as a deficit of local creativity.

in this first comprehensive reading of juvenal s satires in more than fifty years david h j larmour deftly revises and sharpens our understanding of the second century roman writer who stands as the archetype for all later practitioners of the satirist s art the enduring attraction of juvenal s satires is twofold they not only introduce the character of the angry satirist but also offer vivid descriptions of everyday life in rome at the height of the empire in larmour s interpretation these two elements are inextricably linked the arena of satire presents the satirist as flaneur traversing the streets of rome in search of its authentic core those distinctly roman virtues that have disappeared amid the corruption of the age what the vengeful punishing satirist does to his victims as larmour shows echoes what the roman state did to outcasts and criminals in the arena of the colosseum the fact that the arena was the most prominent building in the city and is mentioned frequently by juvenal makes it an ideal lens through which to examine the spectacular and punishing characteristics of roman satire and the fact that juvenal undertakes his search for the uncorrupted authentic rome within the very buildings and landmarks that make up the actual corrupt rome of his day gives his sixteen satires their uniquely paradoxical and contradictory nature larmour s exploration of the arena of satire guides us through juvenal s search for the true rome winding from one poem to the next he combines close readings of passages from individual satires with discussions of juvenal s representation of roman space and topography the nature of the arena experience and the network of connections among the satirist the gladiator and the editor or producer of colosseum entertainments the arena of satire also offers a new definition of juvenalian satire as a particular form arising from the intersection of the body and the urban landscape a form whose defining features survive in the works of several later satirists from jonathan swift and evelyn waugh to contemporary writers such as russian novelist victor pelevin and irish dramatist martin mcdonagh
