The Management and Logistics of Blood Banking 1979 the abuse of heroin and other opiates is a serious and growing public health problem according to the 2004 national survey on drug use and health an estimated 166,000 Americans use heroin in addition 4.4 million use opiate pain relievers including vicodin percodan percocet and oxycontin without a prescription abuse of legal pain relievers represents a growing category in 2004 approximately 2.4 million Americans abused prescription pain relievers for the first time in total about 1.9 of Americans are abusing illegal or legal opiates furthermore opiate dependence is increasing worldwide and significantly exacerbating the HIV AIDS pandemic methadone maintenance treatment (mmt) has been the primary form of treatment for opiate dependence in the us for over 40 years it
involves providing drug abusers with a less addictive opiate methadone in a clinical setting and then gradually tapering the methadone dosage while on methadone patients receive counseling and other medical treatments i.e., hepatitis screening as needed. The ability to provide all of these treatments in one location has made MMT the most effective treatment for opiate dependence. To date in the United States alone, there are more than 1,200 MMT programs with an estimated staff of 20,000 serving more than 200,000 patients annually. Yet to date, there has been no comprehensive user-friendly professional reference book on these programs. This book fills the gap; it is written for a diverse audience including clinicians, program administrators, substance abuse treatment researchers, and other health service professionals who want to learn about all aspects of MMT. Policy makers interested in establishing new programs domestically and internationally will find the information useful. The book offers insights into the effectiveness of methadone and the characteristics of successful methadone treatment programs. Budgets, services, staff, etc., as well as regulation and accreditation issues, are also discussed. The information presented is based on a study of nearly 150 MMT programs in 15 states. RTI International is dedicated to conducting research and development that improves the human condition by turning knowledge into practice with a staff of more than 2,500. RTI offers innovative research and technical solutions to governments and businesses worldwide in the areas of health and pharmaceuticals, education and training, surveys and statistics, demographic governance, economic and social development, advanced technology, energy, and the environment. The second-largest independent nonprofit research organization in the United States, RTI maintains nine offices in the U.S., five internationally, and one international subsidiary as well as project offices around the world.
