The back cover enables workplace responders to prepare for and respond to falls from height. How do you rescue someone suspended in midair or trapped above ground? Author Loui McCurley, an expert in technical rope rescue with more than twenty-five years of experience, has the answers. Following her tested and proven advice, readers will learn how to prepare for and safely rescue at-height workers and others from falls from height. The book fully bridges the gap between planning and execution, steering readers toward simple workplace-specific solutions. Moreover, it explains how to develop and implement a comprehensive protection program, enabling all organizations and their employees to fully prepare themselves to respond to a fall from height. Falls from height is divided into four parts: Part I, Regulatory Considerations; Rescue Plans and Developing a Rescue Capability, underscores the need for a rescue program, explaining how to fully leverage available resources to optimize the program; Part II, Equipment Systems and Skills, details the skills that all rescuers should have and the equipment they need to perform a rescue at height; Part III, Putting It All Together, discusses principles of rigging, single-rescuer methods, and group rescuer methods; Part IV, Successful Workplace Planning, examines the unique challenges of different workplace environments and then offers a step-by-step guide for implementing the book’s recommendations based on the premise that a fallen worker must be rescued quickly and efficiently without putting others in harm’s way. Falls from height is a must for all workplace responders, enabling them to prepare for and respond to fall victims like experienced rescuers. The entitled generation helping teachers teach and reach the minds and hearts of Generation Z brings teachers into the twenty-first century world of 24/7 technologically wired-up and social media-driven students. This book asks teachers to consider pragmatic and sensible ways to teach Gen Z and to understand the differences between today's students and those of the past. Teachers are offered keen insights.
by colleagues in terms of how gen z thinks the various ways that males and females learn and the distractions and struggles each faces by device addiction affecting today's classrooms. American culture is perpetuating the notion that today's students are entitled to economic and social outcomes on equal bases. Gen z feels everyone should be treated as equals receiving the same rewards for unequal efforts thus promoting a feeling of entitlement. Teachers will understand the reality of today's American classrooms even with the assumed addiction to smart technology and social media. Teachers can use this to their advantage and reach the minds and hearts of gen z to prepare them for their futures.
